

New Location for Creation Coffee

Jacob Spence and Ben Marsh, driven by their love for coffee, immersed themselves in extensive research to perfect the art of brewing. Building on the success of their store in Midland, their business has grown throughout the Great Lakes Bay Region and now have four thriving locations in Saginaw, Mt. Pleasant, and Frankenmuth.

Their collaboration with 1st State Bank and MCDC Loan Officer, Coty Gould, proved to be the essential blend for securing financing for the acquisition and renovation of their Saginaw establishment.

Owner Jacob Spence says, “We are incredibly grateful for all the support we've had throughout the Mid-Michigan community. Our team is an incredible group of individuals who understand our mission to serve people to the best of our ability in every capacity. We're going to continue to give it all we've got to continue growing and giving the best possible service and products to as many people as we can”.

Using the SBA 504 Loan Program assisted Creation Coffee to purchase, renovate and equip a new coffee shop in Saginaw. SBA loans can be a great option for borrowers who want to start or grow their business by offering competitive terms, rates, and unique benefits that can help small businesses succeed.
